Project No# JAL2503/41/E

Data Source: WHO Sub Office Jalalabad

DATED: December 2003

Coordinates: Geographic Decimal Degree
Datum: WGS 84

Access Service Ratio permits the relative comparison by district of health facilities and population served. The standard of 3000 people per basic health center is derived from the 1994 "Projects framework: Minimum primary health care for Afghanistan". It is understood that this standard is currently under review.
